Labman One Contracted to Provide Lab Optimization for Communications Leader ViaSat

Auburn, Massachusetts, USA – Labman One, LLC has been awarded a contract to provide laboratory management and support services for digital communications leader ViaSat, a producer of innovative satellite and other digital communication products for commercial and government markets. Labman One will organize and maintain four engineering labs at ViaSat's Marlborough, Mass. facility, home of a ViaSat remote data services group. Services will include building out three test labs for product development, and providing support for product development teams as needed.

In making the announcement, Ken Gamache, Manager of the ViaSat Marlborough Engineering Center, said "Labman One offers our Marlborough Engineering Center flexible lab management and lab technician services which is consistent with our business needs."

James Loach, founder and president of Labman One, said "We're pleased to be providing a range of services for ViaSat. We're implementing and managing their company ESD program, including training, monitoring, and equipment. We're providing PCB and cable repair and rework services through our EMS friends at Lightspeed Manufacturing in Methuen, and we'll manage inventory and ordering of lab computer
